Experience & Projects

Of the Sky: The Game *(in progress)* – LIVE LINK, GITHUB REPO
September 2022 - PRESENT

- In the process of creating a choice-based text adventure game
- Beautiful responsive design, utilizing my thorough CSS knowledge
- Different selected events ("choices") trigger new paths in the story and ultimately lead to varying endings
- Built with: *HTML*, *CSS*, and *JavaScript*

To-do List App – LIVE LINK, GITHUB REPO
September 2022

- A to-do list app that allows the user to "check-off" or "delete" items
- Saves to-do items to local storage
- Ability to filter between completed and incomplete to-do items
- Built with: *HTML*, *CSS*, and *JavaScript*

Film Generator App – LIVE LINK, GITHUB REPO
May 2022

- A responsive web app that generates random films
- User has the ability to toggle between two different generator settings
- Built with: *HTML*, *CSS*, and *JavaScript*

Freelance Tutor
February 2020 - PRESENT

- Assisted undergrad and pre-med students in writing personal statements, Environmental Science courses, essay writing, & forming study habits
- Built long-term client relationships lasting over two years

—
